COGNITIVE CANINE
PRICE LIST & PROGRAMME COMPARISON

Behavioural rehabilitation is fundamentally different from traditional dog training. Rather than focusing solely on changing behaviour, it seeks to understand and address the underlying factors contributing to that behaviour.

Every programme begins with a paid clinical assessment of the patient, their medical history, behavioural presentation, household environment and daily life before recommendations are made. No programme is committed to or paid for until after the assessment.

Meaningful behavioural change rarely occurs during isolated appointments. It requires consistency, ongoing assessment, careful programme adjustments and support throughout the rehabilitation process.

All Behavioural Rehabilitation Programmes require a minimum six-month commitment once enrolled.

PROGRAMME COMPARISON

INCLUDED	BEHAVIOURAL	ADVANCED	INTENSIVE
Paid clinical assessment (counts as month one)	✓	✓	✓
Active Patients Included	**One**	**Up to Two**	**Unlimited**
Monthly 2-Hour Rehabilitation Appointment	✓	✓	✓

CLINICAL ASSESSMENT

Every case begins with a clinical assessment. It is a paid, 2–3 hour in-home assessment with both Benjamin and Becky McGill, analysing the patient across eight domains: observable behaviour, emotional state, learning history, environment, physiology, human factors, behavioural function and the rehabilitation plan.

You commit to nothing further until the assessment is complete. Following the assessment you receive written findings and our recommendation of the programme we believe offers the greatest opportunity for successful rehabilitation.

ASSESSMENT FEES

PATHWAY	SUITED TO	FEE (incl. GST)
Behavioural	One active patient	**$795**
Advanced	Up to two dogs; complex household dynamics	**$995**
Intensive	Severe, high-risk or urgent presentations	**$1,495**

WHAT IS INCLUDED

- In-home assessment of approximately 2–3 hours with two professionals
- Full eight-domain behavioural analysis
- Written findings and programme recommendation

HOW THE ASSESSMENT FEE WORKS

The assessment fee counts as month one. If you choose to enrol, your assessment fee is applied as your first month's fee. Your normal monthly rate then applies from month two.

To use this, enrol within 14 days of receiving your written recommendation. If a different pathway is recommended from the one assessed, the fee is still applied as month one.

- Payment is taken when the assessment is booked.
- Please give 48 hours' notice to reschedule.
- No programme is committed to or paid for until after the assessment.
- The assessment fee is otherwise non-refundable, including where a case is referred elsewhere.

COGNITIVE CANINE
BEHAVIOURAL REHABILITATION

From $795 per month

6-month minimum term once enrolled. Lower monthly rates apply for longer commitments.

TERM	MONTHLY BILLING	PAY IN FULL
6-Month Term (minimum)	$795/mo	$4,530 (Save $240)
12-Month Term	$755/mo (save $40/mo)	$8,610 (Save $450)
18-Month Term	$725/mo (save $70/mo)	$12,400 (Save $650)

Preceded by a paid clinical assessment ($795), which is applied as month one if you enrol.

BEST SUITED FOR

Patients requiring structured behavioural rehabilitation where one active patient requires ongoing rehabilitation within the household.

IDEAL FOR

- Aggression
- Fear
- Anxiety
- Reactivity
- Resource Guarding
- Separation-Related Behaviours
- Behavioural change following significant life events

INCLUDES

- One active patient
- Monthly two-hour rehabilitation appointment
- Individual Behavioural Rehabilitation Plan
- Alternate-week video consultations
- Unlimited email support
- Unlimited text support
- Video review between appointments
- Ongoing programme adjustments
- Behaviour progress monitoring

COGNITIVE CANINE

ADVANCED BEHAVIOURAL REHABILITATION

From $995 per month

6-month minimum term once enrolled. Lower monthly rates apply for longer commitments.

TERM	MONTHLY BILLING	PAY IN FULL
6-Month Term (minimum)	$995/mo	$5,670 (Save $300)
12-Month Term	$945/mo (save $50/mo)	$10,770 (Save $570)
18-Month Term	$905/mo (save $90/mo)	$15,480 (Save $810)

Preceded by a paid clinical assessment ($995), which is applied as month one if you enrol.

BEST SUITED FOR

Households requiring rehabilitation involving up to two dogs, or behavioural presentations involving complex household dynamics, multiple interacting patients or increased collaboration with veterinary professionals.

IDEAL FOR

- Two active behavioural patients
- Inter-household aggression
- Multi-dog behavioural rehabilitation
- Complex rescue households
- Behaviour requiring regular veterinary collaboration
- Cases requiring increased programme review

EVERYTHING IN BEHAVIOURAL REHABILITATION, PLUS

- Up to two dogs
- Priority scheduling
- Quarterly comprehensive reassessments
- Written professional reports
- Veterinary collaboration where appropriate
- Behavioural case conferences
- Increased programme review

COGNITIVE CANINE

INTENSIVE BEHAVIOURAL REHABILITATION

From $1,495 per month

6-month minimum term once enrolled. Lower monthly rates apply for longer commitments.

TERM	MONTHLY BILLING	PAY IN FULL
6-Month Term (minimum)	$1,495/mo	$8,520 (Save $450)
12-Month Term	$1,415/mo (save $80/mo)	$16,130 (Save $850)
18-Month Term	$1,345/mo (save $150/mo)	$23,000 (Save $1,210)

Preceded by a paid clinical assessment ($1,495), which is applied as month one if you enrol.

BEST SUITED FOR

Patients requiring intensive rehabilitation due to the severity, complexity or urgency of the behavioural presentation, and households with an unlimited number of active behavioural patients.

IDEAL FOR

- Severe human-directed aggression
- High bite-risk cases
- Cases involving council or legal proceedings
- Behaviour placing the household at significant risk
- Multiple severe behavioural disorders
- Veterinary behavioural medication monitoring
- Cases requiring rapid clinical intervention

EVERYTHING IN ADVANCED BEHAVIOURAL REHABILITATION, PLUS

- Unlimited active patients
- Highest scheduling priority
- Same-day behavioural support where clinically appropriate
- Emergency behavioural consultations
- Monthly veterinary behavioural collaboration where appropriate
- Behavioural crisis planning
- Multi-professional case management
- Priority report turnaround
- Intensive rehabilitation oversight

COGNITIVE CANINE

OUR PHILOSOPHY

Our programmes are designed around active behavioural patients rather than simply the number of dogs within a household.

Where clinically appropriate, resident dogs may be incorporated into the rehabilitation process without additional charge.

Programme recommendations are based upon behavioural complexity, household dynamics and clinical need rather than household size alone.

Following your clinical assessment we will recommend the programme we believe offers the greatest opportunity for successful rehabilitation.

THE REHABILITATION JOURNEY

- **Submit Behavioural Rehabilitation Application**
- **Application Review** – every application is reviewed personally
- **Paid Clinical Assessment** – 2–3 hours in-home; no programme is committed to until it is complete
- **Programme Recommendation** – written findings and our recommended pathway
- **Commencement of Behavioural Rehabilitation** – your assessment fee counts as month one
